Very good! Book follows same formatting as levels 1-6 and is clear and easy to understand. more cultural information in this book, which was really nice. My only complaint is with the dvds: unlike the last book, the vocabulary is not a seperate selection from the unit lessons and so you have to skip to the end of each one in order to watch the vocabulary. It's a little tedious, but by no means a serious drawback. Used for ASL 2. Very good! Was required for my course. It is often difficult to learn moving signs from the book because it cancAAAt show movement on paper. IcAAAm sure the disks work, but I doneAAAt have a DVD player we provide all videos in mp4 format. I stream everything.It is a good workbook and is used intensely in This is different and better than the "Vista" version of the same title. I bought both attempts to get the most convenient book for college and many search engines of textbooks seemed to confuse the two. This has more information and user friendly. You'll probably only buy it if necessary for a lesson. I think it's a good value with content and DVDS. I'm glad I bought you new. I usually rent or buy used textbooks.
